## Subject Index

- Accessory cells 149  
AIDS 375  
allelic diversity 126  
antibodies 394  
antigen presentation 129  
antigen X 120  
antigen-antibody reaction 21  
antigenic determinants 279  
antigenic specificities 216  
antigens 304  
anti-idiotypic antibodies 91  
anti-malarial 106  
anti-PSL2 40  
anti-PSL3 40  
atypical mycobacteria 375  
autoantibodies 189  
autoantiidiotypes 111  
autoimmunity 25, 29  
azathioprine 254
- B** cell 181  
Bcg gene 320  
BLA cross idiotypes 204  
bone marrow-derived macrophages 342
- Captopril 106  
carbohydrate 231  
carrier (PPD) 303  
CD4 helper T cell 120  
cell lines 182  
chronic inflammation 141  
class II MHC molecule 122  
classic HLA specificities 122  
clonality 170  
complement activation 80  
complement receptor type 75  
composition of the immune complexes 223  
conformation 121  
conformational dosage 135  
conformational equivalence 134  
corticosteroids 105  
coupling 303  
CRIs 41  
17.109-CRI 37, 41  
cross idiotypes 203  
cross-reactive idiotypes 189  
cross-reactive idiotypes (CRIs) 36  
cryocrit 104  
cryofiltration 110  
cryoglobulin 75  
cryoglobulin, clearance 75, 103  
cryoglobulinemia 75, 91  
cryoglobulinpheresis 110  
cryopheresis 110
- CR1, C3b/C4b receptor 75  
cyclophosphamide 254  
cyclosporine 257, 263  
cytokines 251  
cytolytic T cells 338
- Delayed hypersensitivity 303  
dendritic cells 141  
diethyldithiocarbamate (DTC) 256  
1,25-dihydroxyvitamin D3 352  
D-penicillamine 254
- Epstein-Barr virus (EBV) 181  
essential mixed cryoglobulinemia (EMC)  
103, 204
- Fc receptor 108
- Gene conversion 126  
genes 189  
genetic host factors 308  
glomerulonephritis 93  
glycosylation 231  
gold salts 254  
granuloma 353, 359
- H**apten 304  
helper/inducer T cells 338  
HLA 305  
HLA Class II Ir-genes and leprosy type 312  
human cell lines 182  
human IgM-RF paraproteins 189  
Humkv325 41, 44, 45, 46  
Humkv328 46, 47  
hypertrichosis 272  
H-2 320
- I**diotypes 189  
IgG rheumatoid factors 218  
IgM rheumatoid factors 216  
immune complexes 75, 216  
immune deposits in articular cartilage 225  
immune deposits in synovial tissue 222  
immune response gene function 130  
immune response (Ir-) genes 305  
immunisation 304  
immunity 377  
immunodeficiency 376  
immunogenetics 305  
immunoglobulin 21  
immunomodulatory drugs 254  
immunoperoxidase 360  
immunosuppressives 105  
interferon- $\gamma$  338

- interleukin-2 (IL-2) 263  
isoprenosine 256
- Langerhans Cells** 365  
leprosy 279, 359  
levamisol 254  
lymphoid cell lines 183  
lymphokines 263
- M. avium-complex** 381  
macrophage 337  
methotrexate 254, 256  
MHC 279  
mixed cryoglobulinemia (MCG) 103, 189  
MCG, pulse therapy 105  
MLR 147  
monoclonal antibodies 91, 182, 279  
monoclonal IgG3 92  
monoclonal rheumatoid factors (RF) 67, 91  
mouse genetics 320  
MRL lpr/lpr autoimmune mice 91  
multiple sclerosis (MS) 251  
mycobacteria 279  
mycobacterial infection 320  
mycobacterium tuberculosis 375
- Nephrotoxicity** 263  
non-steroidal antiinflammatory drugs 254
- Paraesthesias** 272  
pathogenesis 169  
peptide-induced antiidiotypes 40  
peptides 303  
phagosome-lysosome fusion 350  
plasmapheresis 107  
PO cross idiotypes 204  
PSL2 41, 44, 46  
PSL2 and PSL3 CRIs 41  
PSL2-CRI 40  
PSL2-cross-reactive idiotype (CRI) 45
- PSL3 41, 44, 46  
pulse therapy in mixed cryoglobulinemia 105  
purified protein derivative 301  
-, carrier 303
- RA** 253  
RA, combination therapy 257  
RA, lymphocyte activity score 259  
RA, treatment 253  
reactive oxygen metabolites 349  
regulation of the immune response 307  
RF-producing cells 217  
RF, IgG, selfassociation 218  
RF, structural diversity 189  
rheumatoid arthritis 119, 141, 169, 181, 189, 204, 263  
-, genetic basis 122  
rheumatoid factor 35, 203  
rheumatoid factor (RF) 35, 76, 182, 189  
rheumatoid synovial T lymphocytes 263
- Sjogren's syndrome** 189  
synovial membranes 141  
synovial T cells 146  
systemic lupus erythematosus (SLE) 204, 251
- T cell** 337  
T cell activation 263  
T cell activation antigens 145  
T cell receptor 120, 170  
T lymphocyte 360  
T lymphocytes 169, 377  
thymomimetic drugs 254  
tissue lesions 93  
tuberculosis 279
- Vaccines (PPD)** 304  
vasculitis 93
- WA cross idiotypes** 204
